NEXT Announces Agreement with Coastal Neurological Institute

Bryan, Texas, December 1, 2015 - NEXT Medical Records has been selected by Coastal Neurological Institute (CNI) of Alabama to provide Release of Information (ROI) outsourcing services. CNI's decision to make NEXT its new ROI vendor was based partly on NEXT's transparent revenue-sharing program. True to its business philosophy, NEXT will routinely provide financials (i.e., all ROI fee revenue and costs) to CNI and share the revenue yielded by their partnership.

CNI joins a rapidly increasing number of provider practices and hospitals that benefit from NEXT's unparalleled customer service. Using ABT Medical's [ROI+ online platform](#) to fulfill PHI requests, NEXT is able to offer advanced quality assurance features, "same-day" request fulfillment, and extensive transaction audit reporting.

CNI will also enjoy the benefits of offering the ROI+ Requestor Web Portal to those requesting PHI. This portal, which boasts an unprecedented 95% rate of online PHI delivery to Requestors, enables NEXT to ensure a level of secure delivery protection that far exceeds that of other outsource service companies, while also relieving CNI of phone calls regarding request status.

About Coastal Neurological Institute:

Since 1960, [Coastal Neurological Institute](#) has treated patients in the Gulf Coast region. Its primary office is located in Mobile, Alabama, with three additional office locations in Daphne and Foley, Alabama. Services focus on the back, cranial issues, neck pain, peripheral nerves, minimally invasive procedures, brain tumors, and stereotactic radiosurgery. In 1999, CNI expanded its services to offer a multidisciplinary approach of care through preventative and rehabilitation programs. The practice is staffed by three neurologists and four neurosurgeons with more than 80 years of combined experience.

About NEXT Medical Records:

[NEXT Medical Records](#) specializes in processing Release of Information requests for physicians, clinics, and hospitals. NEXT is focused on continued technical innovation and the re-engineering of ROI workflow to meet increasingly demanding and complex compliance requirements, reduce fulfillment turnaround timeframes, and enable Provider-clients to participate in ROI revenue opportunities.
